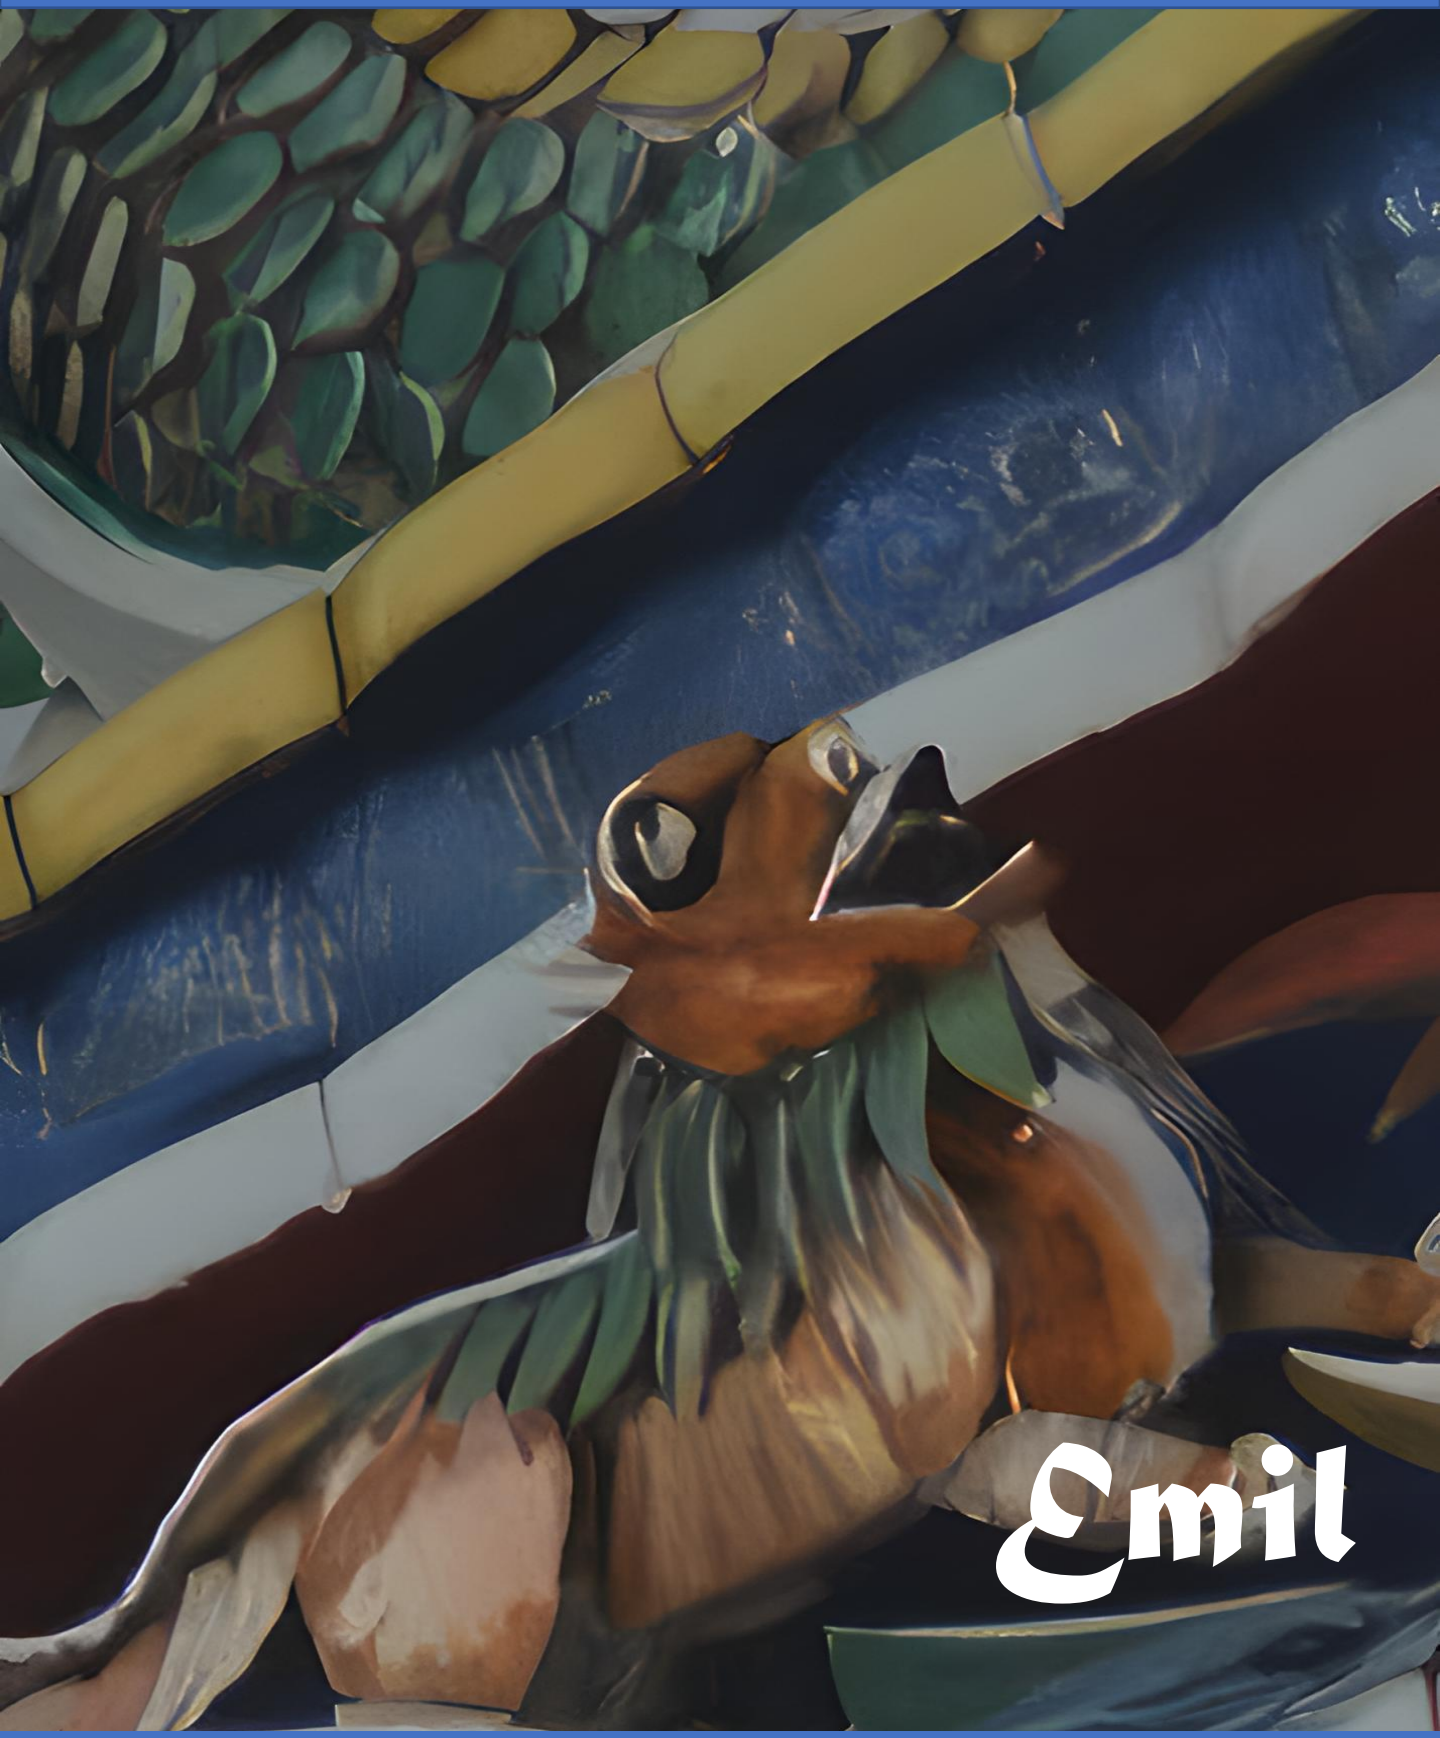
In the far distance, I could hear the faint melody of brother Bobby D. singing passionately about his woes in Mobile, while little did I know that this would foreshadow the upcoming days of my life.

It was during this time that I stumbled upon the shocking revelation that the Harmonic Frequency Modulator I had rented had been recalled.

The reason behind this recall was a recently discovered bug in the firmware, which was sourced

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"



GIOVANNI METRO STOP GALLERY

from the infamous Mister Billy D. Gated and his recently acquired ACEME Heavy Industries.
The breaking news alert came through on my recently acquired Apple I-Phone 37, courtesy of the integration of its technology with the New Multiverse Communication Standards Act of 2025.
This legislation mandated that all communication gadgets must possess the capability for low band modulation to facilitate usage across the Multiverse

Eight Spheres, yes, even Sphere Eight - quite a surprise, isn't it?
Fortunately, I am able to enjoy the convenience of this accessibility extending to the neighboring untamed territories such as Mining Colony Earth.
It brings me immense satisfaction to have the privilege of accessing a membership with the Acrostic Library that allows me to read without any restrictions or checkouts.
Additionally, I am delighted that I can indulge in my

favorite soap operas without worrying about incurring any additional charges for roaming.

The State Media outlet, CNNister, was extensively covering the recall issue, with non-stop reporting and numerous panels advocating for the Corporate Congress to prohibit the public use of certain devices due to alleged public health concerns.

However, according to information shared by my former school friends employed at the Little Joey

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

Buyhim's Memorial Bunker Complex, the real motive behind this push for a ban is not related to public safety at all.
Instead, it seems to be more about the collaboration between the Ahriman Administration and Sky Net Labs in introducing their groundbreaking "Transhumanist" outer skeleton conversion technology.
This technology is designed to enable the elite - the best, the brightest, and the wealthiest individuals - to

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

potentially extend their lifespan significantly. The core component of this technology revolves around the use of industrial-strength Harmonic Frequency Moderators (HFM), which is believed to play a crucial role in achieving the desired longevity outcomes. Reports suggest that the latest wave of HFMs is presenting a significant challenge to Ahriman's ambitious social media strategy, known as the Great New Social Reset.

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

This challenge stems from the fact that these HFMs are now more accessible to a wider audience, including social media influencers who were previously excluded due to financial constraints. Speculations are circulating, particularly from a group known as the Jesuits of the Truth, that the current bugs found in the commercial HFMs may have been intentionally introduced through a clandestine agreement involving Ahriman's WEF Goonies Ministers, Sky Net

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

Labs, and the controversial figure Billy D. Gated.
The motive behind this alleged collaboration is believed to be a strategic move to dismantle the existing technology in order to pave the way for Sky Net Labs to take over the development of the next generation of "Transhumanist" Outer Skelton.
The implications of these rumors are significant, as they suggest a complex web of alliances and betrayals within the realm of

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

-tech innovation and social influence.
If proven true, this revelation could have far-reaching consequences for Ahriman's plans to leverage technology for social control and manipulation, as well as for the future of HFMs and their role in shaping the digital landscape.
Is this true?
Who knows?
It is worth mentioning that I must emphasize that the Jesuits of Truth have consistently proven their accuracy in the past.

This very fact has led to their exclusion from mainstream society and their relocation to different FEMA "Governor Mit" Re-Education Training Centers or their assignment to the Coalition of the Willing Labor Camps, which are operated from covert Black Op Locations in countries such as Gambia.
In these camps, the Jesuits have been compelled to engage in the laborious task of manually extracting rare earth minerals for the Coalition of Willing Nations'

The conversation unfolded in that manner, prompting me to retreat to a secluded booth at the KitKat Gentleman's Club and Laundromat in order to keep a vigilant eye out for any concrete developments regarding the recall of my beloved HFM.

Without the extensive years of apprenticeship under the guidance of Guru James and the renowned training from

the esteemed Guru Wanda, who imparted knowledge directly from Sphere Eight, I could have easily found myself in a state of panic upon hearing this breaking news.

If it weren't for the invaluable experience gained from my time learning from these two influential mentors, I might not have had the necessary skills and composure to handle such unexpected and potentially alarming information.

The teachings and wisdom passed down to me during

The sage advice given is to diligently track the flow of finances, as it holds the key to unraveling complex situations and uncovering hidden truths.
By following the money trail, one can gain valuable insights and potentially expose any illicit activities or corruption that may be concealed within.
It is essential to carefully analyze and observe the parties involved in a situation to determine who is gaining advantages and who is bearing the costs.

This approach allows us to uncover any potential imbalances or hidden agendas, enabling us to make informed decisions and take appropriate actions based on a comprehensive assessment of the situation.
If you have come to realize that the primary prerequisite for any

politician or government official is the skill to confidently deceive the general public without flinching or avoiding eye contact, then you would have already disregarded this particular occurrence as a fabricated event that would easily crumble under scrutiny or if subjected to open questioning.

It is common knowledge that if these wrongdoings were actually happening, social media would be flooded with Class Action Lawyers inquiring, "Have you been affected by HFMs?"
Do you understand what I'm trying to convey?
Old Billy D. Gates, despite the claims made against him, is not known for his lack of intelligence.
However, it is highly unlikely

that he would willingly expose himself to the potential risk of losing trillions of Gold Dinars, which I consider to be the universal standard currency, as the new Ahriman script is not recognized for currency exchange in any of the Free Nations Federation.
In fact, it is even sold as toilet paper in Dubai.
This suggests that he would not be willing to invite economic ruin in order to gain promised access to Ahriman's promise of the advancements of 23rd

Century Technology.
I have confidence in my classmates and their expert(s) that this is simply sensationalized fear mongering designed to disrupt the market for HFM, enabling them to smoothly transition to a new partnership between the Ahriman Government and Skynet.
Moreover, since this recall is initiated under a "Black Flag," there are no actual individuals harmed who could potentially file lawsuits against ACEME Heavy Industries.

Impressive! It is fascinating to witness how this new generation surpasses even the esteemed masters of Capitalism, the Robber Barons of the late 19th Century.

As a precautionary measure, I decided to jot down a reminder to visit the shady back alley, unauthorized repair shop, in order to get them to unlock my HFM using a Nippon Industries XZ-10 Sim Card.

Despite being quite expensive, I can take solace in the fact that my MFM will

not encounter any technical issues.
This assurance is particularly important to me if I was to find myself in a predicament where I have accidentally locked the key inside the room, and I am halfway through the wall to retrieve it and the HFM bugs out.
It is quite unpleasant to even consider, isn't it?
I concur with your sentiment!

Brother Chan (a pseudonym for privacy reasons) dropped by last night, where we indulged in multiple pitchers of the finest bootleg Cuban Rum from the KitKat's private collection and engaged in a stimulating conversation that I found both intriguing and worth

I must clarify that I do not possess any evidence to support the occurrence or scheduling of the events mentioned.
Furthermore, I want to emphasize that if you were to breach my trust and disclose this unprocessed information, I would not hesitate to accuse you of being an individual who promotes rebellion and disseminates false information.
By making such claims, you would be subjecting yourself

to legal action from my legal representative.
Brother Chan recently discussed ongoing research activities taking place at his unauthorized laboratory located just outside Burbank.
He expressed concern regarding the new projects being conducted at his rented facility by a group of well-funded individuals who, for the sake of confidentiality, shall remain unnamed.
These individuals are associated with my

esteemed former benefactor, known as old Doc F., who generously supported our research on GOF Zombie Samples.
It is worth noting that old Doc F. mistakenly believed that our research involved the use of beagle puppies as the central subjects, likely supporting us out of his hatred of these dogs due to (I have been told) traumatic childhood experience with such a dog.
People close to the Old Doc suggested that this traumatic event continues to

deeply affect him emotionally, even seventy-years on.
In a hushed tone, he exclaimed, "Psittacosis!" (Parrot Fever)
It was evident that he was grappling with some inner turmoil, especially with all the groundbreaking work on DNA Genetic Virus Research happening at his secure facilities scattered throughout Burbank.
Despite his usual fearless demeanor, this particular topic seemed to have shaken him to the core.

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

What could I say?
"Parrot Fever?"
"What in the hell is Parrot Fever?"
I felt a sense of sorrow when I inquired, as the individual proceeded to divulge information in a much more detailed manner than I was prepared for. The unrestricted access to this intelligence was compelling enough for me to delve into the narrative of how I reached a point of contemplating suicide while venturing out into the dense forest without a single

crease on my Oxford Brothers Suit or a speck of mud on my penny loafers. A meticulously written note was fastened to my lapel before I proceeded to inflict multiple gunshot wounds at the base of my skull, following the traditional old-school Soviet method that the individuals in Arlington had perfected to shift blame onto the Russians in case of any repercussions. Pondering that this is how the Washington Post may choose to report on this

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

particular topic in a section of their newspaper that is located on page eighty-seven, in the lower column, next to the farm report. According to my former mentor, Larry Nichols, the most effective strategy I had at my disposal was to go public and disclose everything to the public. He believed that by doing so, I would be able to ensure my safety, as disappearing me would only validate the significance of the information I had already made public.

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

However, during this tumultuous time, Larry did offer me a cautionary statement, albeit in a somewhat subdued manner. He warned me that the consequences of my actions might not be fatal, but they would leave a lasting impression on me and never let their grudge died. Despite the emphasize of his dire warnings, I elect to follow his initial advise...better picked on than dead or so my old Uncle Albert was fond of saying. I found myself in a situation

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

where I did not feel a strong bond of friendship with Brother Cham, and I deeply regretted my involvement in the GOF Zombie Samples project. Unfortunately, all my efforts seemed to have led to negative outcomes, such as being wrongly accused of inciting the GOF Zombie Samples Insurrection in Ward Five.

Brother Chan requested that I recollect the series of events that preceded the previous Virus Plague, along with the severe lockdown

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

measures that were implemented, which compelled the general public to willingly surrender their inherent rights in exchange for the assurance of safety from an encroaching epidemic.

During this time, the streets of Wenjun were witness to the distressing sight of individuals succumbing to the virus and collapsing lifeless in public view.

"OK?"

Brother Chan requested that I keep in mind the

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

Emil

GIOVANNI METRO STOP GALLERY

instances where numerous western governments surpassed their initial plea of "We need 15 Days!" This action, as stated by several social scientists, is believed to have directly contributed to the emergence of Ahriman's intervention and the subsequent establishment of his Great Social Reset.

It was a unanimous consensus between the two of us that an abundance of circumstantial evidence existed, which, when disclosed half a century

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

from now, would undoubtedly substantiate the fact that this event was meticulously coordinated, premeditated, and executed on a celestial body where the primary preoccupations of the general populace were the football championships and the potential liberation of Britney Spears.
Brother Chan provided a detailed explanation regarding the absence of the virus plague and shed light on the way state media outlets, such as CNNister, amplified the dissemination

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

of fear-inducing content combined with horrifying videos on social media. These videos depicted a large number of individuals dying in public spaces, hospitals overwhelmed with patients, and bodies piled up in community squares, creating a sense of panic and distress among the viewers.

It is undeniable that their success was evident, prompting individuals to urgently call upon the government to take all necessary actions to ensure their safety.

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

Emil

GIOVANNI METRO STOP GALLERY

The achievement of these individuals was so remarkable that it sparked a widespread outcry for immediate government intervention to guarantee their well-being...a endless chorus of paniced voices demanding swift and decisive measures from the government to protect them.

The government inquired: "Anything?"

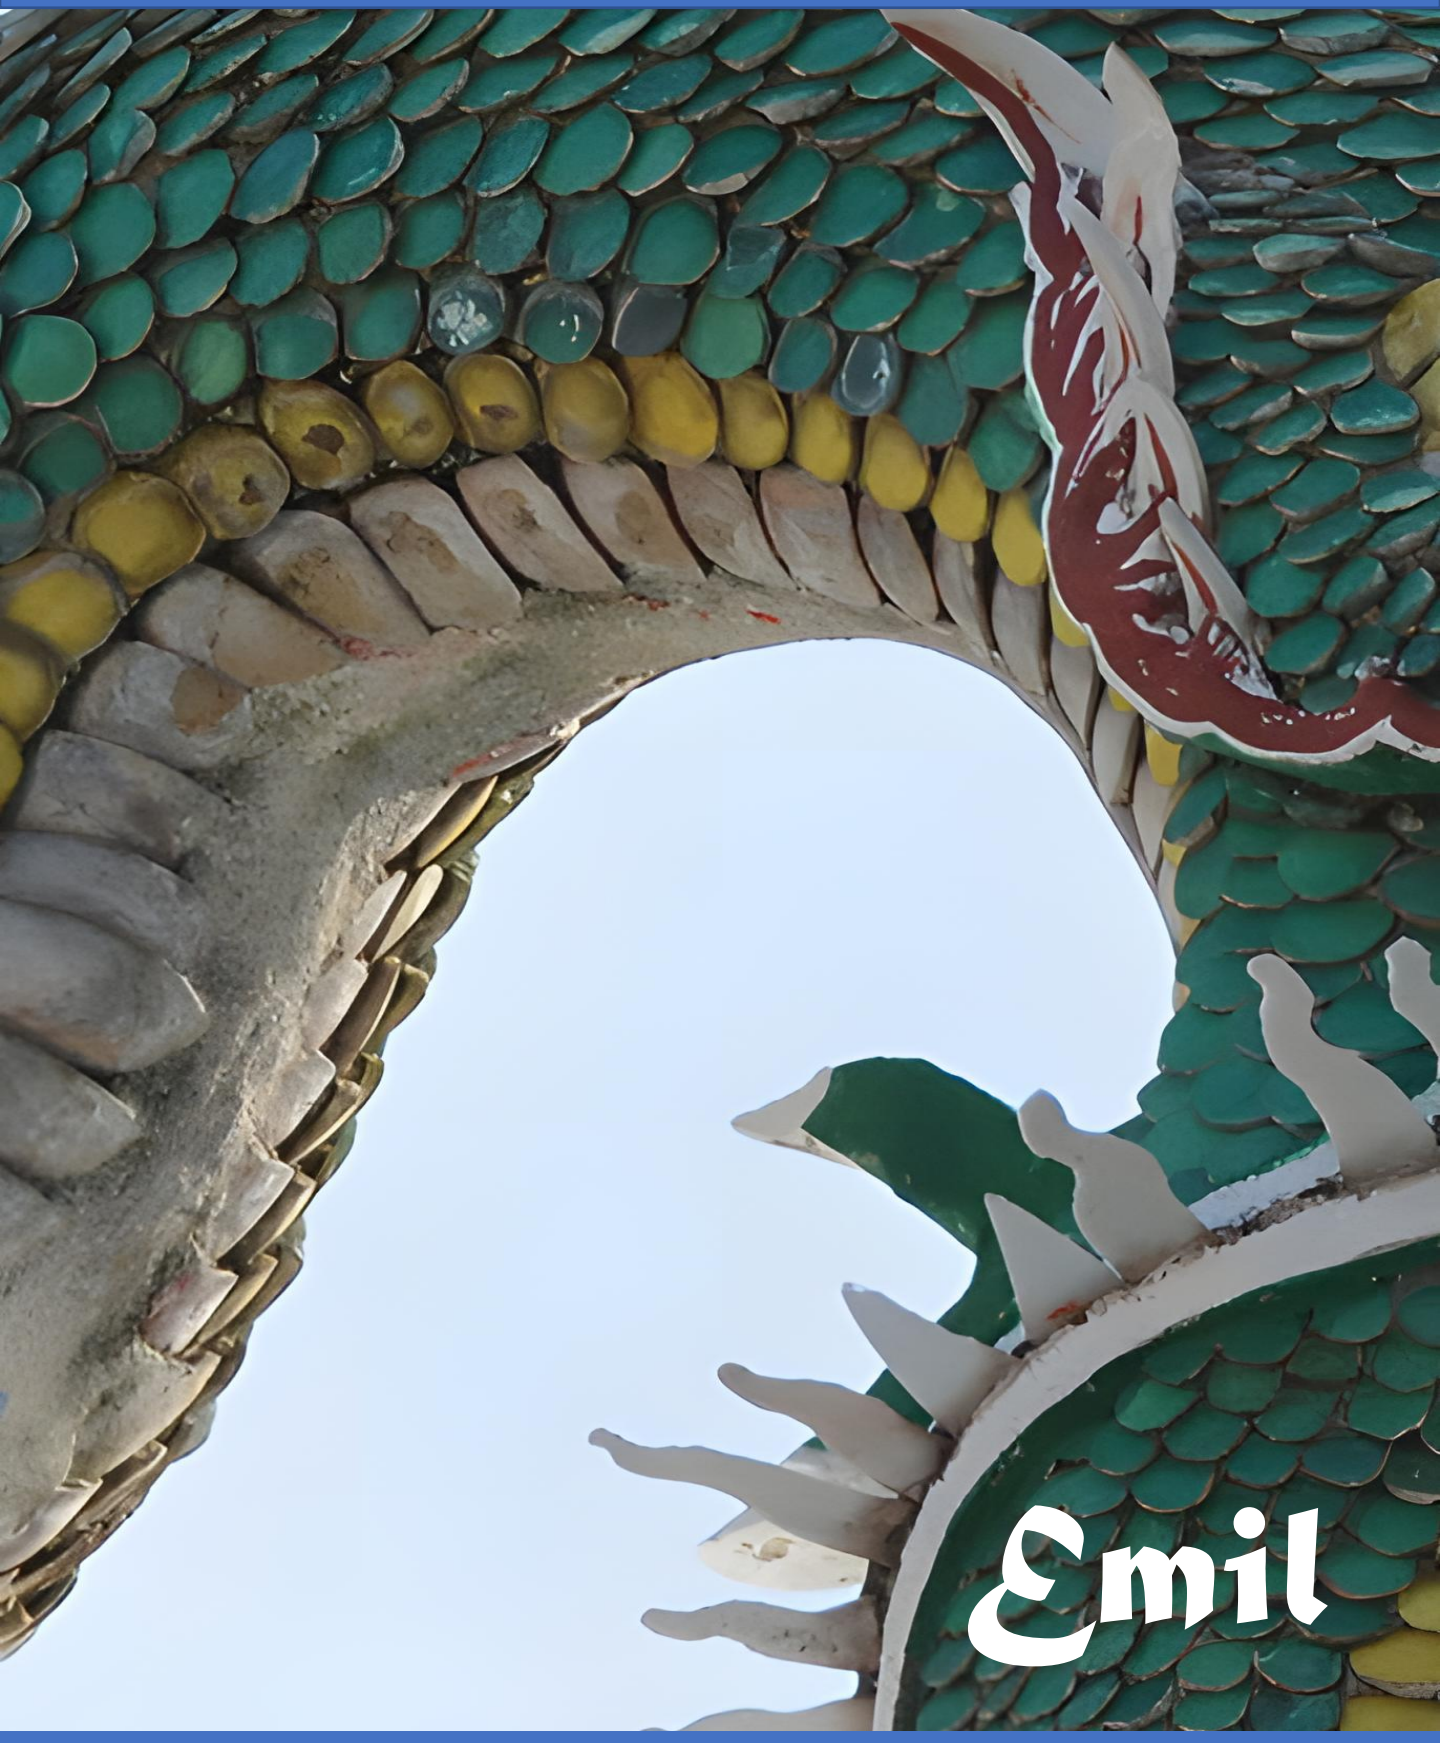
Looking back, it is clear that our trust was misplaced and our hopes for safety were shattered by the failure of

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

those who made commitments they never intended to honor.
It is a mutual consensus between us that the news disseminated by the media in the Free Nations, originating from Ahriman Whistleblowers, regarding the compulsory vaccines, can be considered as yet another instance of a "Black Flag" event, as these vaccines deviate from the conventional definition of a vaccine.
Several ex-researchers argue that the vaccine

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"



GIOVANNI METRO STOP GALLERY

served as a tool to facilitate the manipulation of DNA, the restructuring of cells at a molecular level, centered on a stem cell containing proteins from the mitochondrial matrix. Some individuals, as well as a recent publication from the prestigious University of Canton, argue that there exists concrete proof indicating that numerous vaccines under scrutiny exhibit distinct characteristics resembling those of an initial iteration of nanobots, similar to the

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

Emil

GIOVANNI METRO STOP GALLERY

one developed by ACEME Heavy Industries and patented towards the end of 2018.

It remains a mystery, as only God or the Shadow could possibly have the answer, yet neither is present to either confirm or deny it.

In the realm of government affairs, a span of 50 years may not be considered a significant duration when it pertains to safeguarding classified information. However, it is unfortunate that neither you nor I will

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

Emil

GIOVANNI METRO STOP GALLERY

be present to witness the validation of our intuitions regarding these secrets.
“So, Brother Chan, does it really matter other than for bragging rights?”
Brother Chan, who had been attentively listening to my doubtful reaction, raised his gaze from his almost drained glass of Cuban Rum and uttered, "It's happening once more!"
"Is that so? I apologize for sounding impolite, but I am genuinely curious about their perception. How do they expect the general

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

population, including individuals like us who are not particularly knowledgeable, to believe in their ideas, retreat to our basements, and even go as far as putting masks on our cats?"

Brother Chan pointed out to me even if the ordinary rubies had lost their faith in the government, it would only take another major, world-altering event such as Pearl Harbor, the 9-1-1 attack, or the notorious Snackgate Corporate Scandals of early 2024 to

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

induce a similar level of fear and panic among the general population as they did during the beginning of the Killer Lockdowns.
Brother Chan proceeded to elaborate on the topic, stating that Parrot Fever is a widely recognized illness that often occurs in individuals in parrots but had only at 5 crossover, human cases, in Europe, due to the actual need to practice unprotected, exchanging of bodily fluids.
"Monkey Pox version 2.1?" I jokingly added.

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

Emil

GIOVANNI METRO STOP GALLERY

Parrots are unfortunately susceptible to this particularly unpleasant disease for which a vaccine had not been developed due to the lack of financial incentive (parrots are notorious for being expensive pets without trust funds) or any gain-of-function research been explored... that is, until very recently.

Brother Chan proceeded to present me with a press release from the World Health Organization (not the musical group,

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

surprisingly?) outlining a significant initiative aimed at creating a vaccine for coming Parrot Fever.
It is quite perplexing to comprehend the development of a vaccine for a disease that has only impacted a mere five individuals with deviant tendencies in Europe.
The question arises as to how such a limited number of cases could warrant the extensive efforts and resources required for vaccine research and production.

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

The rarity of this disease among the general population raises doubts about the necessity and practicality of investing in a vaccine for such a minuscule affected population.
Brother Chan scanned the bar, ensuring that there were no eavesdropping local neighborhood spidermen before proceeding with his question: "What information do you have regarding COG (Continuity of Government)?"
My knowledge on the subject was limited, mostly

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

gathered from sporadic listening to Coast To Coast AM Radio, where I picked up bits and pieces about a plan that was initially designed to guarantee the government's continuity in case of a nuclear war.
Brother Chan confided in me with a sense of urgency, suggesting the creation of a major emergency scenario such as an alien attack, terror attack, virus plague with a significantly higher death rate than previous outbreaks, or even a simple EMP.

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

Emil

GIOVANNI METRO STOP GALLERY

He explained that such an event would prompt the President to declare a state of emergency, triggering the Continuity of Government (COG) plan and ultimately leading to the implementation of martial law.

This extreme measure would grant the President the authority to dissolve all elected government bodies, including down to tribal councils, in order to maintain control and order in the face of the crisis.

The Tribal Council plays a

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

significant role in the governance and decision-making processes of indigenous communities. It serves as a platform for tribal leaders and members to discuss and address various issues, ranging from cultural preservation to economic development. The council's responsibilities include making decisions that impact the welfare and future of the tribe, such as land management, resource allocation, and the preservation of indigenous traditions and customs.

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

Through their collective efforts, the Tribal Council strives to ensure the well-being and empowerment of the indigenous community they represent.

"The inclusion of this provision occurred during Bubba Bush's tenure as president, as the individuals belonging to the COG People community recognized that only elected officials, including the Tribal Councils, possessed the authority to legally contest the decisions of the COG in the Supreme Court. Do you understand

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

the significance of this?"
In this scenario, it is important to understand that once an emergency situation arises and the Continuity of Government (COG) plan is put into action, the power to terminate it and organize a new election lies solely with the President or any other designated authority.
This implies that the responsibility of ending the crisis and restoring normalcy through the democratic process rests in the hands of the highest

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

executive office or the authorized individual.
The duration of this could potentially span over several years, which is a considerable amount of time to consider and contemplate.
Brother Chan strongly believed that the situation could potentially lead to either a significant shift in power through a legitimate generational change or an unlawful uprising or rebellion.
When Brother Chan rose to depart, I expressed my strong disdain towards him

"A COMPLEX WEB OF ALLIANCES AND BETRAYALS"

GIOVANNI METRO STOP GALLERY

for divulging this story and subtly hinted that if I were to meet an unfortunate demise in the remote wilderness, I would relentlessly pursue him across countless lifetimes to convey my gratitude. After concluding my conversation with Larry, I promptly shared this account on the Outlawed, Jesuits of Truth Website.
